Major redevelopment of the college campus including multiple new buildings for lecture theatres, dormitories, recreation, and student services. Landscape design was completed for plazas, courtyards, podium and roof gardens in order to provide interactive and comfortable sitting areas, performance space and outdoor study areas to enrich student activities and the learning environment within the campus.

NEW HARROW INTERNATIONAL SCHOOL IN HONG KONG

Client: Harrow International School Hong Kong

This project has involved the preparation of a tree transplant and replacement application to make way for the prestigious Harrow International School in the New Territories. Impact on existing trees has been minimized, and where possible, existing trees have been transplanted to other areas of the site. A considerable amount of additional large tree planting will also be included within the site to compensate for the loss of existing vegetation. Soft landscaping includes a series of carefully designed courtyards in addition to a real turf sports field at the heart of the school grounds.

CARITAS HOSPITAL : REDEVELOPMENT OF CARITAS MEDICAL CENTRE, PHASE 2

Client: Hong Kong Hospital Authority

Project Director. The Caritas Medical Centre (CMC) is situated on a hillside along Ching Cheung Road in Sham Shui Po, North Kowloon. The site is about 51,000 sq.m. in area. The project involves a complete refurbishment of facilities including the hospital's landscape. New landscape facilities include a rehabilitation garden, sensory garden, large passive open spaces, event spaces, greening of existing slopes and rationalisation of pedestrian and vehicular circulation. The primary objective of the overall landscape design is to ensure that a landscape is created commensurate with the philosophy of care espoused by the Caritas Medical Centre. Consultancy services include conceptual design, detail design, documentation and construction supervision.

COLUMBARIUM DEVELOPMENT AT AVENIDA SON ON NOS. 1, 3, 5 AND 7 TAIPAI, MACAU

Client: Companhia de Desenvolvimento Tin Wai Limitada

This project involves the development of a multi-storey columbarium providing 50,000 niches in Taipa, Macau. Landscape design services for a 6 storey, high quality, private columbarium located on the north side of Taipa Island. The landscape design includes internal entry and atrium, sculpture areas, rooftop gardens, external courtyards, and café terrace areas. URBIS worked closely with the Client and Architects to develop a sensitive scheme balancing functionality, ceremonial and religious sensitivities and commercial objectives.

PARKS & OPEN SPACES

Consultancy Agreement No. 9AB 110 - Green Connection – Reprovisioning of Tsun Yip Street Playground Ball Courts and Enhancement of Facilities in Hong Ning Road Park and Ngau Tau Kok Fresh Water Service Reservoir

Client: Architectural Services Department, HKSAR Government

The project is for reprovisioning of Tsun Yip Street Playground ball courts affected by the project 450RO - Converting Tsun Yip Street Playground as Kwun Tong Industrial Culture Park to the Hong Ning Road Park and Ngau Tau Kok Fresh Water Service Reservoir. The construction works will be conducted in two phases to maintain the operation of the service building during construction and other facilities before reprovisioning within the construction period, so as to minimize the impact of the park closure to the nearby residents. New facilities include a 7 a-side football pitch, basketball courts, fitness equipment,

passive recreation facilities, etc. reconfiguration of the existing park is required to accommodate the new facilities and a new connection between the lower main park and upper reservoir platform is required.

RENOVATION OF CHINA RESOURCES BUILDING AND SURROUNDS – HARBOUR ROAD GARDEN AT 26-28 HARBOUR ROAD, WAN CHAI, HONG KONG

Client: China Resources Property Limited

Full Landscape Design Services for public spaces within Harbour Garden, and pedestrian spaces around the China Resources Building at both ground level and at elevated walkway level. The design for Harbour Garden is a total redesign of the space as a Garden and Plaza with Water Features – a design which opens up the former walled garden to visually and physically link with the surrounding pedestrian streetscapes.

AP LEI CHAU WIND TOWER PARK - CONSULTANCY AGREEMENT NO. 9AP 024 - RECREATIONAL DEVELOPMENT AT NORTH AP LEI CHAU RECLAMATION

Client: Architectural Services Department, HKSAR Government

With a total area of about 2.62 ha the project includes a new waterfront promenade with the theme of traditional fishing harbour, vantage points, including a tower and viewing platform, for appreciation of the original fishing-junks and lifestyle of the fishing community; a multi-purpose piazza for activities such as Tai Chi exercise; a display gallery of fishing industry; a walking cum jogging trail; a landscaped garden and sitting-out areas; an elderly exercise corner with fitness equipment. Mainly soft landscape and site setting design, scope of work including liaison with client, soft landscape elements selection and periodic site supervision.

ASD CONSULTANCY NO. CAA L017 379RO - CHERRY STREET PARK

Client: Architectural Services Department, HKSAR Government

Provide input to the design team to finalise landscape design for the new public park located at West Kowloon which can also incorporate the client's schedule of accommodation includes a services building, a 7-a-side artificial turf soccer pitch with spectator stand for about 100 persons, two basketball cum volleyball courts etc. Also with a jogging path with fitness stations, gardens and all types of hard and soft landscape design. Special planting design is required for this park as some of the areas are on top of the drainage reserves which restrict the selection of plant material. Also need to prepare Tree Felling Application, Landscape Design Concept, details design and contract documentation.

AIRPORT INFRASTRUCTURE

THREE RUNWAY SYSTEM PROJECT - CONTRACT 3133 – LANDSCAPE DESIGN CONSULTANCY SERVICES FOR THIRD RUNWAY CONCOURSE

Client: Airport Authority Hong Kong

NEW CIVIL AVIATION DEPARTMENT HEADQUARTERS ON AIRPORT ISLAND

Client: New Civil Aviation Department/ Architectural Services Department, HKSAR Government

Project Director. This project comes in response to strong growth in air traffic in the south China region. The 3 Hectare site incorporates an Office & Training Building, Support Facilities Centre and Air Traffic Control Centre (aeronautical information centre, rescue coordination centre, network management centre, etc.),. URBIS worked with the Architects and the Contractor, Dragage, to develop an integrated design solution for the project. Key landscape features include ecoroofs and green walls, seaside community trail and a large entry landscape entry forecourt. Bearing the imprint of environmental protection concerns, the project includes ecoroofs, photovoltaic panels, three 2,000-watt wind turbines and a fibre optic solar tracking system.

CONTRACT 3101 THREE RUNWAY SYSTEM ENVIRONMENTAL TEAM CONSULTANCY SERVICES

Client: Airport Authority Hong Kong

The study is to develop an Overall Three-Runway System (3RS) Landscape Master Plan (OLMP) covering both existing and future 3RS land areas. The Landscape Master Plan (LMP) also to supported Land Grant Application for the 3RS new land area. Also, a review and consolidation was carried out for the tree management plans of various 3RS Detailed Design Consultants (DDCs) to fulfil the requirements of compensatory tree planting.

CONTRACT P275 CAR PARK 4 EXPANSION DESIGN CONSULTANCY SERVICES

Client: Airport Authority Hong Kong

The proposed landscape design includes the provision of landscape detailed design and construction documentation for Car Park 4 Expansion (CP4E), which is to be a new multi-storey carpark that connects to the existing CP4 carpark as an extension. The landscape design intent is to create a visually strong pattern on the external south facing walls as vertical green façade which can provide a 'free-flow motion' effect that represents the idea of air travel. The landscape design also incorporated internal courtyard spaces for offices and rooftop garden as an extension of staff canteen.

CONTRACT P271 TERMINAL 1 CAPACITY ENHANCEMENT – DESIGN CONSULTANCY SERVICES

Client: Airport Authority Hong Kong

The proposed landscape design under this Scheme Design includes the provision of landscape deck(s) to L7 East Hall Extension and Carpark 4 Extension. The L7 east Hall Extension (North Side) is an extension of the indoor departure hall providing an outdoor open space for the relaxation and enjoyment of travellers awaiting their flight departures. The proposed CP4 Ext is a multi-storey carpark to be constructed at the existing ground-level open carpark. The landscape design intent is to create a visually strong pattern on the vertical green façade which can provide a 'free-flow motion' effect that represents the idea of air travel.

PUBLIC DOMAIN

AGREEMENT NO. HQS 01/2004 - DEVELOPMENT OF GREENING MASTER PLAN FOR TSIM SHA TSUI AREA

Client: Civil Engineering and Development Department

In September 2004, URBIS Limited was commissioned by Civil Engineering Development Department to conduct a study on the Development of Greening Master Plan for Tsim Sha Tsui Area. The purpose of developing the Greening Master Plan is to define the overall greening framework, including establishing planting themes and identifying the extent and locations suitable for greening. The developed Greening Master Plan will be a reference guide to all bodies involved in the implementation of greening work within the area, with a view to achieving an effective overall greening effect with local characteristics. The main objectives of the assignment are: a) to develop a Greening Master Plan for the Tsim Sha Tsui area; and b) to identify locations within the Study Area which are suitable for immediate implementation of the proposed pilot greening schemes.

YAU TONG STATION DESIGN

Client: MTR Corporation Limited

Detailed design, tender and construction inspection of landscape design for new MTR Station.
